

Are You Getting The Best Deals & Service On Your Communication Requirements?

Let Us Help! This Is What We Can Do For You...

*** Need A New Phone System Or Maintenance & Upgrades For An Existing System?**

Is your phone system unreliable, expensive to maintain, due for retirement or not "fit for purpose"? Are you missing things that other companies have? Not enough incoming lines, no voice mail, digital receptionist, transfers, queues, announcements, or music on hold? We supply new phone systems perfectly suited to small business. We can also maintain and upgrade most existing phone systems. Whatever your requirements just give us a call for friendly unbiased advice. We're always happy to help. Tel 0800 092 5439.

*** Set Your Office Phone Free With "VoIP Made Simple" A Hosted Phone System..**

If you work from home, from a small office or from many different locations (even abroad) then this is the perfect office phone solution. "VoIP Made Simple" is an easy to use plug and play phone system. It requires no equipment at your location other than your handset and an internet connection! Simply plug your phone into the internet anywhere on the planet and make and receive calls on a normal UK number! Big system features like digital receptionist music on hold and voicemail are all included. More info is available from the dedicated website www.voipmadesimple.co.uk or give us a call for more information. Tel 0800 092 5439.

*** Need New Phone Lines Installing?** We can arrange for all types of new phone lines to be installed at your business. Via our suppliers online portal we have access into the BT ordering system. All lines are installed and maintained using BT Openreach. Tell us your requirements and we'll arrange everything for you from placing the order through to the actual installation. Let us take the hassle out of the process! Just give us a call to discuss what you need. Tel 0800 092 5439.

*** Who Else Wants To Slash £££'s From Their Phone Bill?** If you're still with BT or another big supplier for call charges and/or line rental we can pretty much guarantee that you're paying more than you need to! In nearly all cases its possible to simply and easily reduce your phone bill for calls made and rental of the lines. Our services allow users of BT telephone lines (and most other suppliers) to move their calls across to us to make large savings whether or not the call is to a local, national, mobile or international number. It's free to move, with no long term commitments (just 30 days notice), and there are no changes in phone number or quality of service. There's no need for a visit or any interruption to your phone line whatsoever. Essentially all that happens when you transfer Call and Line rental to us is that we take over the billing of your existing services using our own discounted rates. Give us a call now to find out how much you could potentially save. Tel 0800 092 5439.

*** Lots Of Local Businesses Aren't Getting The Broadband Speed They're Paying for! Why Be One Of Them?** Chances are you're paying for a broadband speed you probably cant actually get or a service that's not right for your business requirements! The trouble is, your broadband speed is affected by how far your location is from the telephone exchange. The further away you are, the slower your broadband - no matter what speed you signed up for! We offer a range of broadband connections that we can tailor to your requirements based on the actual connection speed you're likely to get and what applications you use the internet for. We can also test the distance of your line to the exchange and the actual quality of the line to give you a better understanding of what broadband service is right for your business. Don't keep paying for services you cant get or that aren't fit for purpose! For helpful and friendly advice just give us a call now. Tel 0800 092 5439.

*** Need A Non Geographic Number For Your Business... 0800, 0844, 0845, 0871?**

"Call us free" is a compelling message, particularly when your business offers products or services which are similar to those of its competitors. Scanning the Yellow Pages for a plumber and finding only one with an 0800 freephone number, who would you call? 0800 numbers are free to the caller from most land lines and are billed to the owner of the recipient number. When calling 0844, 0845 and 0871 numbers, part of the cost of the call is paid to the recipient number owner, this is known as "revenue sharing". We can supply all types of Non Geographic numbers. Just give us a call to discuss your requirements.

Times are tough at the moment and every business owner wants to cut unnecessary costs. Doesn't it make sense to make sure you're getting the best deals & service on your communication requirements?

Whether its reducing your current call & line rental, finding you the best broadband deal, ordering new phone lines or supplying and maintaining a new phone system for your business we're here to help.

We'll give you friendly helpful and unbiased advice. Our business is to provide jargon free telecoms products and services with an honest, real world approach to business communications. This approach is now the cornerstone of our business and all our employees understand and follow this philosophy.

You will always receive the most up-to-date and informed advice before you purchase. The products or services you receive will be of the highest quality, fully warranted and backed up with exceptional support and service by qualified and caring people.

We are a member of the Federation Of Communications Services. This is the UK Trade Association for the communications services industry representing businesses delivering products and services to customers by radio, mobile, fixed and IP telephony. As such we adhere to a strict code of practice governing the sales and marketing of our services.

some time explaining things.**

Who we are:-

**Black Sheep Business Communications Ltd,
1st Floor Meridian House,
5 Longworth Road,
Horwich, Bolton,
Lancs. BL6 7BA.
Tel: 0800 092 5439
www.blacksheepzone.com**

We moved to our new base in the centre of Horwich (just around the corner from the RBS) in June 2009. Before that we'd been located along with our I.T company, Norbrook, in the Westhoughton / Hindley area.

**We're located on the 1st Floor of Meridian House
right in the heart of Horwich, Lancashire.**

MD David Lloyd

"We've run a successful local I.T firm, Norbrook Direct, for over 12 years. We took the decision to start Black Sheep Business Communication (Norbrook's sister company) in mid 2008.

Over the last 18 months we've developed a range of telecom products and services for small and medium sized businesses.

**Martin Lloyd
Technical Director**

The move to Horwich has seen the business really take off and we look forward to helping many more local firms benefit from our services.

We've always been a family run business with a no nonsense, straight forward and honest approach. We think this has helped us enormously in building the trust of our local clients"
